A Full and exact Relation of two old
Apostles, aged above 1000 Years,
coming invisibly into the great City
of THOLOUZE, &c.

Honoured Sir,

I Promis'd you when I left LONDON to give you
a particular account of what remarkable Passa-
ges which might happen in these parts; at present
I can meet with nothing worth your acceptance, but
this ensuing Story concerning these two old Men,
which causes here great admiration; The Story as
it is represented to us here, I pray take as follows,
(viz.)

A Few days since arrived in this City Two
very Antient Men who call themselves
Apostles, and they say they have the Spi-
rit of Truth; No Person at any time ever saw
them enter into this City; they go in such an
extraordinary strange Habit as never was seen be-
fore in any Country in the World. They walk
about the Streets Preaching, and exhorting the
People to Repent, and do Penance, and to quit
their evil Lives, Because they say that God is
angry against the Romans; They say that this
City is as another Sodom, and that the Iniquity
of

of this People is mounted up to Heaven, and that within Three Months, (if they Repent not, and amend their Lives) this City shall be destroy'd by Fire as *Sodom* was. They have continued still in this City Preaching from day to day ; they go with their Feet bare, and their Hands and Eyes always lifted up to Heaven ; They have not been known to sleep ever since they came hither ; they have been often forbidden by the Magistrates to Preach ; But they answer'd, they were sent on the behalf of God, to move the People to Repent and do Penance ; whereupon they were caused to be put into Prison, where several *Jesuits*, and Learned Men went to visit them, and Disputed with them in the *Latin, Greek, Hebrew, & Chaldean* Languages. They certainly know those that live a wicked life ; and when any such come before them, they particularly exhort them to Repent, and amend their Lives. Their Food is nothing but Bread and Water ; they lift up their Hands and Eys continually towards Heaven, and are continually exhorting the People to Repentance ; They precisely nominate the day that our Saviour shall come to Judgement in : And when they were asked how long time shall yet pass before the general day of Judgment ; They answer, that the World shall have an end in the year *One Thousand Six Hundred and Ninety* ; But about two or three years before that time, all the Christian World should be troubled with Wars. They say they are much above a *Thousand Years* of
of

of age; And being askt from whence they came, they answer'd, they came from *Damascus* a City in *Galilea*, and were sent by God to Preach Repentance to the World. The *Jesuits* have obtain'd of our Magistrates, that these Men should be sent to *ROME* to the *POPE*; But these (Apostles as they call themselves,) answer'd, that they knew very well all that must happen unto them; And that it was altogether unnecessary to force them, for they had a great desire to go voluntarily to *ROME*: their Chains were made of strong and heavy Iron; and when they were in the Streets, and their Chains very strongly fastned on their Legs, they brake them in Pieces before all the People, who were wonderfully astonisht thereat, which caused them all to believe them to be very great Saints; they are now on their Journey for *ROME*. *I shall shortly give you an account of their behaviour in their Journey, and of their behaviour and reception at Rome.*
